He was in his best clothes, and he had made up his mind to pop the question and have the veranda as the deacon danced around day set. The widow sat on the verauda whacking at the bugs and files, and he took a seat beside her.

As a prelude he began to tell her about the drought in Texas, and he had got along as far as to state that every cow wanting a drink had to walk 100 miles for it when the widow rose up with a cry. She had espied a hog in her back garden. It was a spotted hog, and his sneut was playing hob among her Early Rose potatoes. He had burst his way in from the alley without reference to its being the Sab-

"It doesn't make any difference who owns him, he's in your garden."

"You don't mean you'll kill him?"
"I'll break every bone in his body!" There was a grimness about the deacon that the widow had never seen before, but before she could say anything further he set off with a club in his hand. The hog had his head turned the other way and was very busy, and the first thing he knew he received such a thump across the back that he supposed an apple tree had fallen ou him. He took a skate for a few rods and then turned about and saw the

man and his club. Anybody who thinks a hog has no feelings will get left. He knows the difference between a square deal and ag'in! a sneak, and when he is humiliated he feels revengeful. It didn't take this particular hog over ten seconds to realize that he had been played low down and to decide on a course of action.

Every bottle of Dr. Pierce's worldfamed medicides leaving the great laboratory at Buffalo. N. Y., has printed
upon its wrapper all the ingredients
entering into its composition. This fact
alone places Dr. Pierce's Family Medicines in a class all by themselves. They
cannot be classed with patent or secret
medicines because they are neither. This
is why so many unprejudiced physicians
prescribe them and recommend them to
their patients. They know what they
are composed of, and that the ingredients
are those endorsed by the most eminent
medical authorities.

The further fact that neither Dr.
Pierce's Golden Medical Discovery, the
great stomach tonic, liver invigorator,
heart regulater and blood purifier, nor his
"Favorite Prescription" for weak, overworked, broken-down, nervous women,
contains any alcehol, also entities them
to a place all by themselves.

Many years ago, Dr. Pierce discovered
that chemically pure glycerine, of proper
swength, is a better solvent and preservative of the medicinal principles reading in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal
properties of its own, being demulcent,

properties of its own being demurcent, nutritive, antiseptic, and a most efficient antiforment.

Neither of the above medicines contains alcebol, or any harmful, habitforming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, non-secret medicines largely, but the most intelligent people sampley them—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicines put up for like purposes has any such professional endorsement.

Boston, April 24.—Congress yesterday nade an additional appropriation of \$1,-00,000 for the benefit of San Francisco. 500,000 for the benefit of San Francisco, following the request made by the President in his special message of Saturday. A bill introduced in the House authorizes the remission of tariff duties on relief supplies for San Francisco, and on building materials hereafter used directly in the reconstruction of the city. The relief fund Sunday reached the enormous total of \$13,147,190. This sum does not include the collections taken up in churches of all creeds all over the country, and the total actually on the ountry, and the total actually on the cay to the relief committee is probably well in excess of fourteen millions. Food of all sorts has been rushed forward in such large quantities that every present need is met, and the Federal officials need is met, and the Federal officials even hint at an over-supply if more is ordered. Melbourne, Australia, started a relief fund with \$25,000. Richmond, Va., raised \$40,000 in ten minutes. Providence, R L. increased its contribution to \$50,000: Pittsburg to \$225,000, Wilmington to \$10,000, Atlanta to \$15,000, Los Angeles to \$300,000 and Portland, Ore, to \$250,000. The relief trains are being un on passenger train schedules, thus adding to the expense. To transport a train of provisions from Chicago to San Francisco on this sort of a schedule would cost a shipper between \$9,000 and \$12,000. Rev. Dr. Ernest M.
